D90 MAX

New Territory Without Limit

EXTERIOR

MAXUS D90 MAX

Boldness in style

With a unique and attractive design that combines SUVs and off-road vehicles, the Maxus D90 Max offers a different and modern driving experience. The unique compact design allows you to experience all terrain while providing a smooth ride on normal roads.

1 Striking LED hi-tech headlights

Sharp eyes make the car head look more sporty, and farther irradiation distance, low power and heat, energy-saving and environmental protection, and long service life.

2 Front grille

A front grille with a cross-bar design enhances airflow to improve engine performance, and its smooth dark surface gives it a luxurious and modern look that imparts a sense of perpetual motion, reflecting its unique dynamic capabilities.

3 Modern Back LED Light

The LED taillights in the Maxus D90 Max feature a modern design combined with a sporty character that extends along the rear fascia of the car, providing bright and clear lighting.

4 Panoramic Sunroof Experience

Maxus D90 Max's luxurious panoramic sunroof floods the interior with natural light and offering unobstructed views whether on city streets or off-road terrain.

5 Superior Alloy Wheel Hubs

265/50R20 size alloy wheel hub are precision engineered to provide superior stability, control, and durability on various road surfaces with a stylish design that matches the design of the vehicle's front grille.

6 Induction electric tail door

The Maxus D90 Max features an innovative electric tailgate that provides convenience and ease of use. With four convenient ways to open the tailgate – key, reading light switch, touchpad, and kick sensor ensures hassle-free loading and unloading for all your loading needs.

INTERIOR

Pure High Class experience

With a unique and attractive design that combines SUVs and off-road vehicles, the Maxus D90 Max offers a different and modern driving experience. The unique compact design allows you to experience all terrain while providing a smooth ride on normal roads.

>> 7 luxury leather seats

Spacious interior space that can accommodate 7 passengers, with three comfortable rows and leather seats of high manufacturing quality and various features that give passengers superior comfort during long trips.

>> Spacious interior luggage space

The internal rear space of the Maxius D90 Max provides more room for packing large luggage with a practical and flexible design that allows you to customize the space according to your need and allows the luggage to remain stable while moving in different terrains.

8 High-Quality Speaker System

The Maxus D90 Max is equipped with an 8-speaker high-quality sound system, allows sound to reach all rows equally, providing a great listening experience for driver and passengers.

Floating touch screen

Maxus D90 Max is equipped with a modern 12.3-inch smart touch screen. This high-resolution display allows easy access to all vehicle features and functions, enhances the driving experience and keeps the driver connected and in control.

Gear shift + paddle shifters

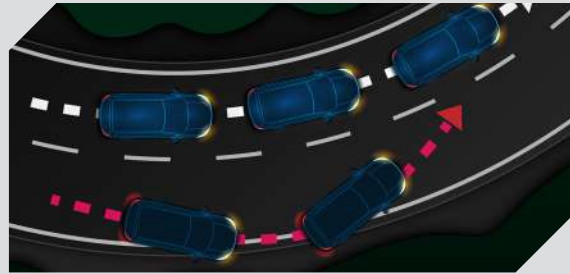

Maxus D90 Max is equipped with a modern 12.3-inch smart touch screen. This high-resolution display allows easy access to all vehicle features and functions, enhances the driving experience and keeps the driver connected and in control.

Elegant control panel

The Maxus D90 Max features a stylish and modern design that makes it easy to access and adjust various functions with the push of a button. It also makes it easy to change driving modes according to different terrains easily, as well as access to adjusting the car's interior climate.

SAFETY

ESP (Electronic Stability Control)

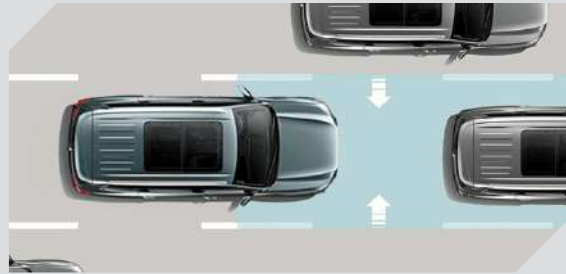

Helps to prevent accidents by detecting and reducing loss of traction. It automatically applies brakes to individual wheels and adjusts engine power to help the driver maintain control.

Blind Spot Sys (BSD – RCTA – DOW)

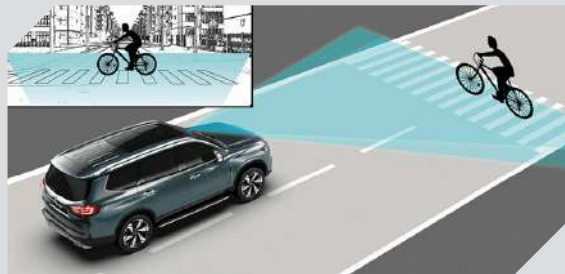

The Blind Spot System includes a range of technologies such as Blind Spot Detection, Rear Cross Traffic Alert, and Driver's Attention Warning. These features help to alert drivers of vehicles or obstacles in their blind spots, aiding in safe lane changes and preventing accidents.

LCA (Lane Change Assist)

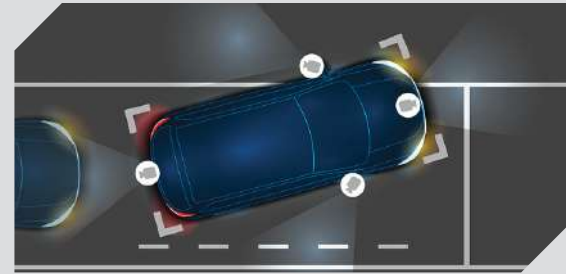

Advanced Driver Assistance System (ADAS) that helps drivers safely make lane changes and warns drivers of approaching cars in their blind spot.

Automatic emergency braking (AEB)

The Maxus D90 Max is equipped with Automatic Emergency Braking (AEB) feature to detect potential car crashes and automatically apply the brakes to avoid a collision or reduce the severity of impact. Whether in heavy traffic or open road.

360 Degree Image

Provides a bird's eye view of the vehicle, making it easier for the driver to navigate tight spaces and avoid obstacles. This feature enhances overall safety by improving visibility and reducing risks.

ACC (Adaptive Cruise Control)

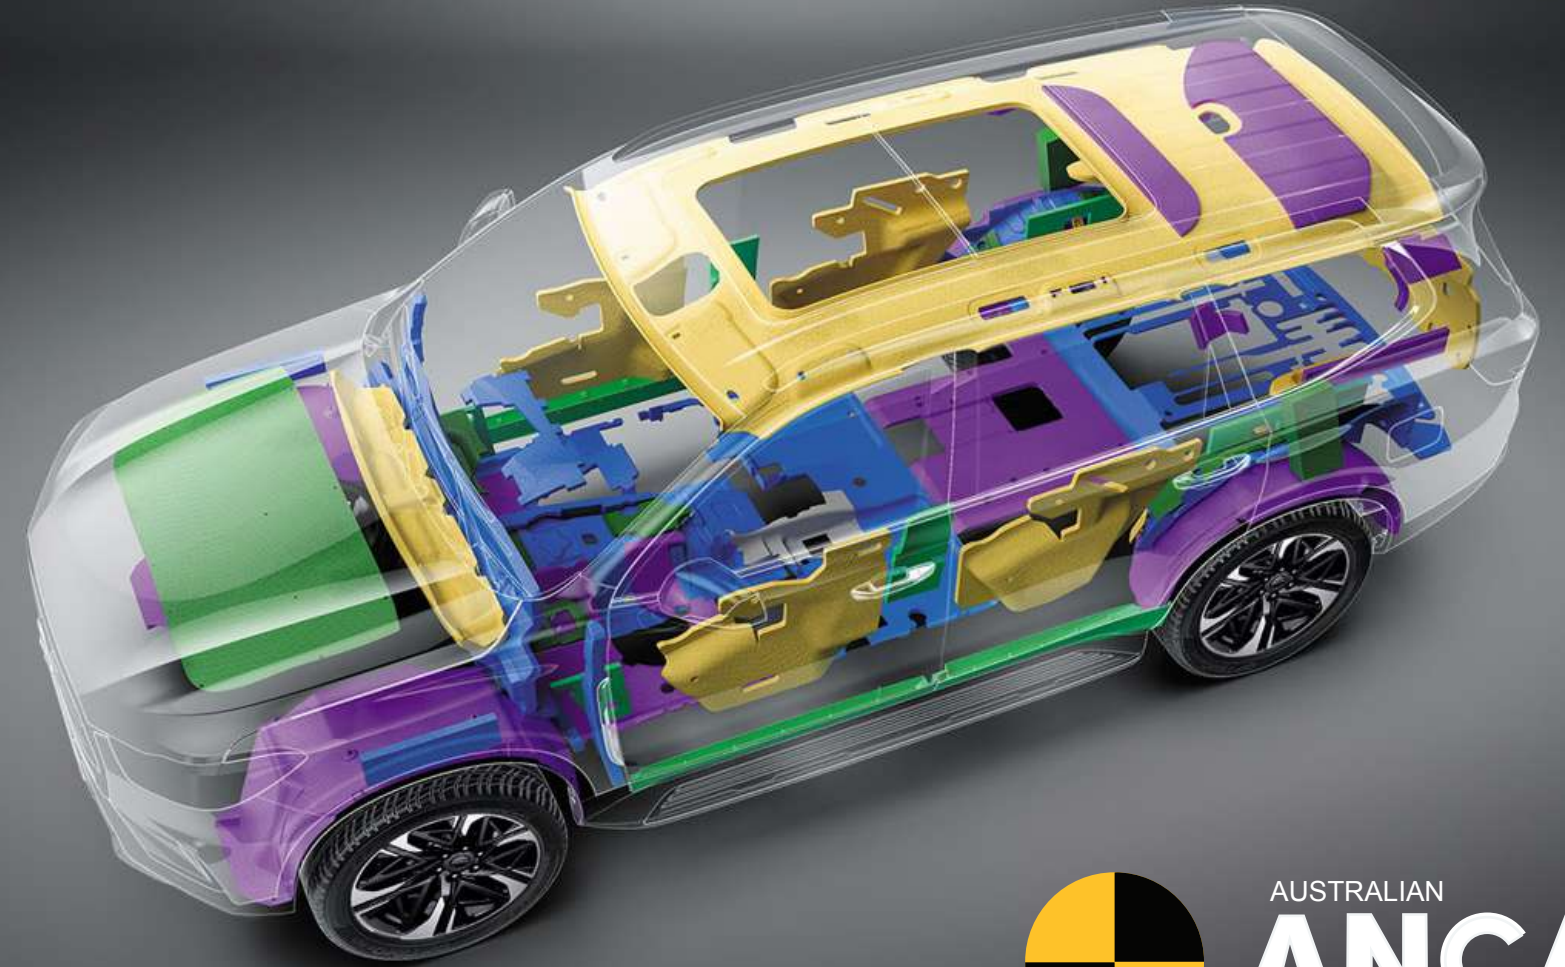

Automatically adjusts the speed to maintain a safe distance from vehicles ahead. The system uses sensors, such as radar or cameras, to detect the speed and distance of vehicles in front.

5 Star Australian ANCAP Safety Rating

The Maxus D90 Max has been rated with five stars in the ANCAP safety rating, which is used to evaluate the safety of vehicles based on their performance in crash tests. Always feel peace of mind as the Maxus D90 Max meets the highest standards of collision protection and accident prevention because your safety is always a top priority.
