# D60 MAX

## STYLE MEETS PERFORMANCE

# SLEEK AND SOPHISTICATED

The perfect blend of style and functionality, sleek lines create a dynamic powerful appearance, making this SUV a bold and adventurous vehicle ready to take on any terrain.

## LED Headlamp

The LED headlights of the Maxus D60 Max have a crisp and thin design that gives it a sporty character that is consistent with the car's side curvature, as do the rear fog lights, which are designed to improve visibility and road safety.

## Rear Spoiler

The Maxus D60 Max Spoilers are specifically engineered to enhance a vehicle's aerodynamics and minimize drag. As air flows over the vehicle at high velocities, the spoiler functions to redirect the airflow, allowing the vehicle to slice through wind resistance more efficiently and diminish turbulence.

## LED Back Lights

LED rear lights with a design connected to the tailgate give a streamlined and elegant appearance to the rear side of the car, with side curves that help blend it with the sides.

## Panoramic Sunroof

Offering an expansive view and allowing natural light to flood the cabin, the Maxus D60 Max Panoramic sunroof can be tilted or fully opened for a refreshing breeze, enhancing the driving experience with a touch of luxury and sophistication.

## Electric Tail Door

The Maxus D60 Max features an Electric tail door that provides ease of use and convenience for all your loading needs.

## 19" Aluminum Wheel Hubs

Quality designed to enhance the performance and aesthetics of your vehicle, Maxus D60 Max Wheel Hubs are made of durable aluminum that is designed to last and provide a sleek, modern look to your wheels.

D60 MAX

# EXTERIOR DESIGN

# Spacious luxurious Interior

D60 Max provides a spacious interior space with a luxurious and comfortable design that improves the passenger's experience during long trips and allows you to enjoy the external views from different angles, in addition to the internal atmosphere that can be improved by changing the colors surrounding you.

## Front seats with different adjustment positions

The front seats in the D60 Max can be electrically adjusted in 6 different directions for the driver and 4 different directions for the passenger, thus providing a feeling of maximum comfort while driving and during long trips.

## 10-inch central touch screen 64 Color Atmosphere Lamp

10-inch smart central touch screen with a unique design that matches the shape of the cockpit and integrates with the control panel in an elegant style, in addition to the Apple CarPlay feature that provides access to a variety of phone functions.

The 64-color ambient lights in the Maxus D60 Max add a dynamic and customizable touch to the interior atmosphere with a wide range of colors that can be customized to suit your taste and style.

## Mobile Wireless Charging

The wireless charging system provides a fast and efficient charging experience thanks to its elegant and smart design that prevents slipping or scratches, and thanks to its strategic location in the cockpit, it facilitates access, whether for the driver or passenger, to the fast charging feature.

## 8 Speakers System

The Maxus D60 Max is equipped with an 8 high-definition speaker system that allows the sound to reach all rows of the car evenly, giving a wonderful listening experience to the driver and passengers.

## Smart LCD 12.3 Inch screen

The wide 12.3-inch LCD screen is clear while driving to provide smooth control of the car and combines luxury with technology and comfort.

## Automatic air conditioning system

The Maxus D60 Max features an automatic air conditioning system that maintains appropriate temperatures inside the car and regulates temperature and humidity levels, providing a pleasant for drivers and passengers.

## 7 leather seats

7 PVC leather seats feature a luxurious and durable material designed to provide both style and comfort. With three rows of seating, it can accommodate up to seven passengers with ample legroom and headspace provided by the car's wide dimensions.

D60 MAX

# INTERIOR FEATURES

### ESP (Electronic Stability Control)

Helps to prevent accidents by detecting and reducing loss of traction. It automatically applies brakes to individual wheels and adjusts engine power to help the driver maintain control.

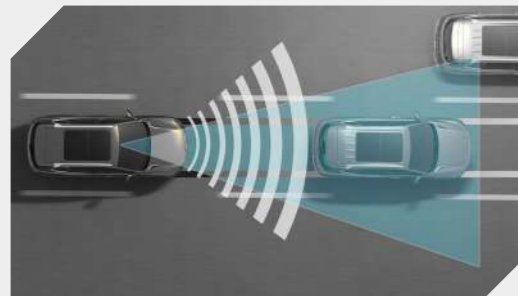

### 360 Degree Image

Provides a bird's eye view of the vehicle, making it easier for the driver to navigate tight spaces and avoid obstacles. This feature enhances overall safety by improving visibility and reducing risks.

### Strong Body Structure

Features advanced suspension systems, including Macpherson Independent front suspension and Multilink Independent rear suspension, precision-crafted by MIRA for a smooth and controlled ride with improved stability and handling.

### Cruise Control

Supports an advanced cruise control system that allows drivers to maintain a constant speed without the need for constant manual adjustments. It uses radar sensors to detect other vehicles on the road and adjust the vehicle speed, accordingly, ensuring a safe and efficient driving experience.

### Airbags

The Maxus D60 Max features airbags for both the driver and passenger, in addition to side curtain airbags that protect passengers from side impacts in case of an accident.

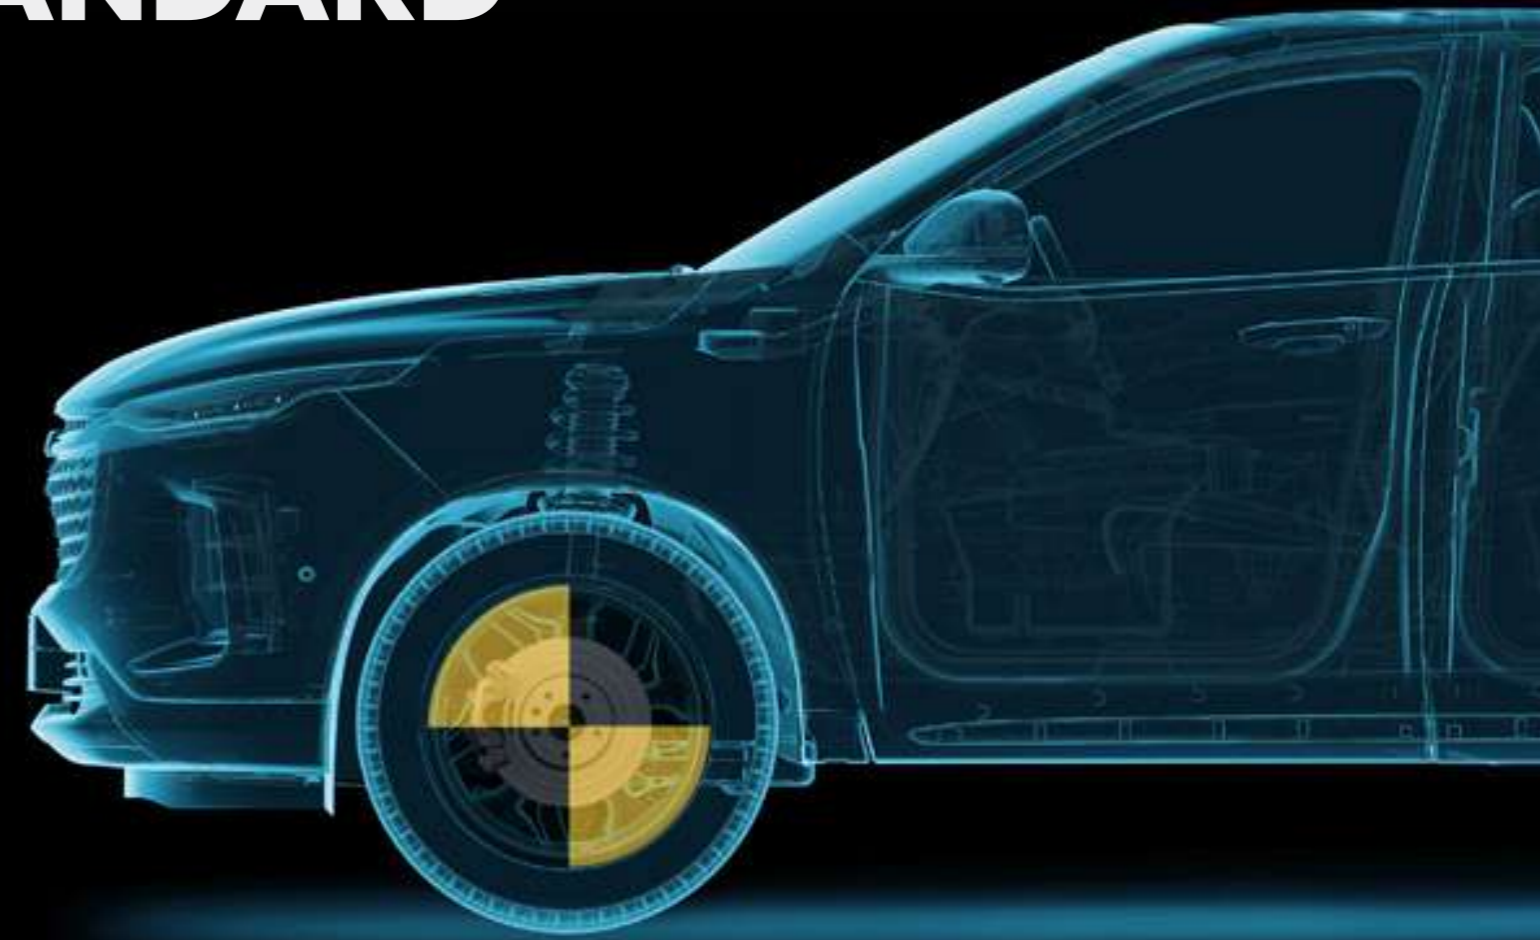

### Blind Spot Monitoring System

The Maxus D60 Max Blind Spot Monitoring System is an innovative safety feature designed to enhance driver awareness vehicles and obstacles helps reduce the risk of collisions and improves overall road safety.
